Here is Sylvester's version of the conversation:

"De White House gentleman what answered de phone up there got mad and said, 'quit calling de president,' but I keeps on and finally gets him.

"He say, 'who dis' and I say, 'It's Sylvester.'

"He Say, 'Sylvester who?'

SHOWER FOR BRIDE

A delightful event of Friday evening was a surprise linen and glass shower given by Mrs. Franklin Dusek in honor of Mrs. Ben F. Reichert, a recent bride, who before her marriage was Miss Iva Wilson.

The home was decorated for the occasion featuring pretty potted plants, pansy and japonica blossoms in bowls. The courtesy came as a complete surprise the honor guest who had been invited to come and play 42 during the evening with a few neighborhood frends. Upon her arrival was greeted with a bevy of girls and young matrons. She was invited to have a seat at one of the game tables when the charming young hostess, a bride of a few weeks, brought in a pretty pink and blue flounced parasol decorated with tiny pink tulle bows, filled with attractive linens and glassware, placed it in front of the honored guest. Mrs. Harry Tag read a poem during the presentation. Gifts were opened by the bride who thanked the givers in her own sweet manner.

Following the shower, bridge games were enjoyed. Mrs. Robert McCown a bride of a few weeks, made highest score and received a cook book, which she presented to the honor guest. Low fell to Miss Mary Bailey, who received a pair of linen pillow cases, which she also gave the bride.

After the games tables were laid with dainty luncheon cloths where green moulded fruit salad, chicken salad, sandwiches, stuffed olives, individual cakes embossed in pink and green flowers, green mints, were served with drink. Plate favors were miniature pink and green parasols, duplicate of the shower parasol.

Back in the last century, Abbas I, a Viceroy in Egypt, discovered a slave girl smoking a cigarette in the precincts of his harem, whereupon he ordered that her mouth be sewn up. The order was accordingly obeyed and the poor girl died of starvation. Abbas lived in a day when man was "monarch of all he surveyed." History has reversed itself. Now mere man gets his mouth sewn up, not with stitches, but the meaningful nods and telling words from the one who has solemnly sworn "to obey."

When Chinese Gordon was made governor of the Equatorial Province, Africa in 1874, he had his salary reduced from 10,000 pounds sterling to 2,000. In his view, there were two kinds of office holders which he was pleased to designate. Class A and Class B. The Class A officials made the welfare of the people their first concern, while the Class B made the salary the first concern. According to this division, it would be interesting to know how many officials could qualify under Class A today. Possibly there are some, but I have not been introduced to them . . yet.

MRS. JETER

(Continued from page 1)

member of an old established family of Falls county, and had made her home in Cameron for about 40 years, where she was known for her splendid Christian graces. She was of a quiet disposition, firm in her convictions; was charitable and ever ready to aid those in need; was a devoted mother, possessing all the attributes of a high Christian woman, and was much loved by all who knew her.

Her home was noted for true hospitality. She had been a mother to a motherless granddaughter, Miss Mary Ellen Jeter who had been a member of the Jeter home for years before her marriage to Rufus Boecker of Fort Worth, who had come to Cameron several days before the passing of her grandmother and was present when the end came.

Mrs. Jeter had been a life long member of the Baptist church where she had spent much of her earlier lif eand Christian work.

She is survived by four daughters, Mrs. W. O. Newton, Misses Beth, Lillie, Mag and Mable Jeter and one son, Tom Jeter, all of cameron; four step children, Mrs. A. C. Sparr, of Douglas, Arizona; L. L. Jeter of Dallas, Jeff Jeter of Marysville, Kansas, and Mrs. J. H. Eastland of Mineral Wells, and a number of grand children.

Pall bearers were her grand sons. Roy and John Jeter, Barkley Jeter, Oliver, Joe, Frank and Bill Newton, of Cameron.

The Coleman Funeral home directed funeral arrangements.

A wealth of beautiful flowers covered the grave and lot, giving silent testimony of the love and esteem in which deceased was held by many friends who came to attend the funeral, both in Cameron and nearby towns.

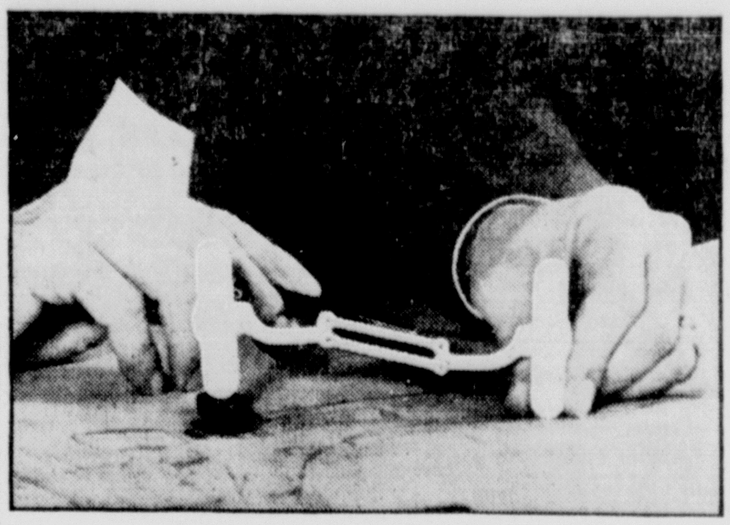
AXLEFLEX STEPPING OVER A BUMP



"How does Axleflex work?" "What is this knee action?" "How does it step over road bumps?"

These and dozens of similar questions have been put to Terraplane and Hudson salesmen by thousands of people, especially since the Hudson Motor Car Company's announcement that Axleflex independent springing would be available on all models of both Terraplanes and Hudsons at no extra cost. To make the simple description clear to even the least mechanically-minded persons, the Hudson Company has provided salesmen with the small working model shown in the photograph. The model indicates clearly how independent action of either front wheel is obtained without sacrificing the stability of a front axle. Using an eraser, or a pocket knife, to represent a road bump, the salesman shows how one wheel steps over the bump without transmitting the jolt to the other wheel, and without altering the level of the car.

Art of Living Discussed At Curry

When the H. D. Club met at the home of Mrs. George Leath February 23, Miss Bertha Baylor told the reading hour in the home: Books to suit one's taste, a good reading light, a comfortable chair and a quiet corner that enchants their pleasure may rarely be found assembled together in public places, so these things we must look to the home to provide.

The efficient home-maker of today budget their time as well as their money. In the time budget should be Reading and in the money budget should be books, at least one periodical and one newspaper. Reading serves two purposes—to give information and to give pleasure.

Mrs. Martin Kilian told the Childrens Reading Hour in the home. The 'Dont's' and 'Do's' for father and mother: Don't read to your children, but WITH them, and be sure to discuss the books you read. Don't openly point a moral. Leave that to the child. Children want different things at different ages in their reading as well as in eatng, and dressng.

Miss Lou Coward read a poem, "We Are Seven," by William Wadsworth.

The next meeting will be held at the home of Mrs. Ed Tindal March 9th at 2 p. m. More attractive Lawns will be studied. Miss Bertha Fay Strange will give a demonstration, "Level and Plant Lawn."

ACREAGE AGREEMENT REQUIREMENTS GIVEN

What does the cotton contract require of the producer who has signed the 1934-1935 cotton acreage reduction?

Reduce his cotton acreage on the land now on his farm or farms for the year 1934 crop year by an amount of from thirty-five to forty-five per cent, and for the year 1935 crop year not to exceed twenty-five per cent below the average planted to cotton on such land in the base period.

The normal amount of fertilizer may be used. Using or encouraging the use of more than the normal amount of fertilizer violates the spirit of the cotton acreage reduction plan.

The following restrictions will be in force: Under no circumstances can any crop be grown for sale directly or indirectly upon the land taken out of production. The producer should not expect to use it for producing any product for sale any more than he would on land rented to a neighbor..

Feed crops intended to be grown on other land for the feeding of livestock cannot be diverted to land taken out of cotton production, thereby releasing acreage for the production of some other crops for sale.

The producer shall not grow cotton during 1934 and 1935 on land owned, operated, or controlled by him unless such land is covered by a 1934 and 1935 cotton acreage reduction contract.

Not include in the rented acres waste, gullied, or eroded land. The rented acres shall be tillable land suited to the growing of cotton and shall represent in productivity a fair average of the cotton land on the farm.

The renter acreage is released from the terms of the contract in 1934 and 1935 for the purpose of planting crops for harvest in the following such release as provided under paragraph four of the contract.

In the event that the Secretary of Agriculture prescribes any reduction in acreage to be planted to cotton in 1935, payments similar to those for 1934 will be made for the year 1935 on approximately similar dates.

The first one half of the rental payments will be made in April, approximately; the second one half of the rental will be made between August 1, 1934 and September 30, approximately.

The parity payment will be made between December 1, 1934 and January 1, 1935, approximately.

The boundaries of the land taken out of production shall be marked by the producer with stakes or other appropriate markers.

Each farm will be inspected and measured, to see that the required cotton acreage reduction actually is made and that other terms of the contract are complied with. Inspection and measurements are necessary before the second payment for 1934 or 1935 can be certified.

As it will soon be planting time, we would suggest to all farmers who are co-operating with the Government in the cotton acreage reduction, to measure the rented acres and stake with posts, or other appropriate markers, the boundaries of the land, keep the measurements and figures until the committeemen come to inspect or approve the rented acres in July. Plant the rented acres so marked in feed and feed crops for home consumption of for pasture, for soil-improving crops, erosion-preventing crops, or fallowing.

The producer must remember that he is only allowed to grow 55, 60 or 65 per cent of the acres grown on his farm during the base period. The base period is that series of crop years 1928 to 1932. Each producer knows what per cent he rented to the Government of his five year base period. Therefore producers must be careful and not plant more acres in cotton on their farms than the contract calls for. It is possible that the planted cotton acres will be measured in order to fully comply with the contract.

Nagging Pains are WARNING SIGNALS

TEMPORARY pain relief remedies may save you much suffering at the moment, but putting a mask over a warning signal does not clear up the condition it was telling you to avoid.

When periodic pains, due to a weak, run-down condition, distress you, treatment for the cause of the trouble should be started without delay.

Take Cardui to build up against the nagging symptoms of ordinary womanly ailments. It has been in use for over 50 years. So many women praise CARDUI, it must be good to have the widespread use that it has today. Sold at drug stores.

Why Doctors Favor a Liquid Laxative

A doctor will tell you that the careless use of strong laxatives may do more harm than good.

Harsh laxatives often drain the system, weaken the bowel muscles, and even affect the liver and kidneys.

Fortunately, the public is fast returning to laxatives in *liquid form*. The dose of a liquid laxative can be measured. The action can thus be regulated to suit individual need. It forms no habit; you needn't take a "double dose" a day or two later.

Dr. Caldwell's Syrup Pepsin gently helps the average person's bowels back to regularity. Why not try it? Some pill or tablet may be more convenient to carry. But there is little "convenience" in any cathartic which is taken so frequently, you must carry it with you, wherever you go!

Its very taste tells you Dr. Caldwell's Syrup Pepsin is wholesome. A delightful taste, and delightful action. Safe for expectant mothers, and children. All druggists, ready for use, in big bottles. Member N. R. A.

FORD TO BUILD HUGE EXPOSITION AT THE 1934 CHICAGO WORLD'S FAIR

Henry Ford and Edsel B. Ford show to Rufus C. Dawes (center), president of the World's Fair, the scale model of the giant Ford Exposition building to be built at the 1934 Fair. (Lower) The Ford building as it will be seen from Leif Eriksen drive. Opposite the building will be a huge park bordering Lake Michigan.

A GREAT Ford Exposition, portraying the tremendous part the arts, sciences and virtually every other industry plays in the manufacture of today's motor cars, is planned by the Ford Motor Company for the 1934 World's Fair.

The Ford Exposition will be housed in a giant building 860 feet long to be built in the heart of the fair grounds on an 11-acre plot bordering Lake Michigan and flanking the main fair boulevard. Construction of the building will start Mar. 1.

In the dominant central building will be housed Henry Ford's "Drama of Transportation," depicting the development of wheeled vehicles from the chariots of ancient Egyptian kings to modern motor cars. Every model of Ford car made since 1903 will be included.

In the smaller building to the left will be housed some of the priceless historic exhibits from the Edison Institute at Dearborn, Mich., including the one-story brick workshop, complete with the original tools, where Mr. Ford in 1893 built with his own hands his first motor car. This first car will be displayed inside the shop.

The main exposition building will display an imposing array of exhibits, most of them in action, show how steel, aluminum and other metals, soy beans, corn, wool, cotton and other farm products and the products of myriad industries are converted into car parts. The building also will house displays of cars and a big movie theater. Along the east side will be an open-air balcony equipped with chairs and lounges where hundreds may relax.

Across the drive fronting the lake will be a big Ford Park, beautifully landscaped and also fitted with seats and other comforts for fair crowds.

Relieves Women's Pains

Here is an example of how Cardui has helped thousands of women:

"I was very thin and pale," writes Mrs. F. H. Scott, of Roanoke, Va. "I suffered from weakness and a severe pain in my back. This pain unnerved me, and I did not feel like doing my work. I did not care to go places, and felt worn, tired, day after day.

"My mother had taken Cardui, and on seeing my condition she advised me to try it. I have never regretted doing so. I took three bottles and it built me up. I gained in weight, my color was better and the pain left my back. I am stronger than I had been in some time."

Cardui, the purely vegetable medicine which so many women take and recommend, is sold by local druggists.

FRIENDSHIP 4-H CLUB

The Friendship 4-H Club met with Ollie Bell Lands, yard demonstrator, February 21, 1934. The Agent, Miss Strange, was present and gave a demonstration on screening planting.

First we were shown how to prepare the beds properly, by digging and mulching the beds before planting, then we were told where to place plants to secure the best results. Stress was made on the fact that the purpose of screening is to soften the view. We are looking forward to a hundred per cent accomplishment of that part of our goal.

Where Army Flyer Died on Way to Father's Birthday Dinner

This photo was taken a few moments after the plane of Lieutenant Fred I. Patrick, army flyer, nosed over on soggy ground near Dennison, Texas. Patrick died from his injuries enroute to the hospital. He was stationed at Shreveport, La., assisting in the supervision of the army airmail set-up there, and had gone to Dennison to be present at the birthday dinner of his father. The plane's engine failed at 800 feet, and Patrick was not sufficiently high to reach a suitable landing place.

MRS. HUGH HARRIS

September 4, 1876 there was born to Mr. and Mrs. W. C. Caskey, at Davilla, a baby girl, Willie Etta. Here among us she has spent most of her fifty-seven years. Here at her home she passed away very suddenly February 25th at 9:30 p. m. Although she had been for years subject to severe heart attacks, she was all rgiht between them, and her passing was a great shock as well as great grief.

Converted and becoming a member of the Christian Church at the age of twelve, Mrs. Harris was a loyal and faithful Christian as long as she lived.

Married to Hugh L. Harris October 24, 1893, she leaves her husband, a precious memory of a loving devoted wife. To them were born three children: One dying in infancy, a son, Cecil, a daughter, Mrs. M. C. Moore survive. Each has a son. It was to these grandsons, perhaps, that Mrs. Harris showed the tenderest care. "Mammie" as they lovingly called her was always planning and thinking for them, and they will always cherish her memory.

Mrs. Harris also has five sisters and six brothers living. To all of them she was always most affectionate. To her daughter she was not only a loving mother, but a brave and generous pal, always interested in everything.

In every undertaking for civic and church betterment she was willing and eager to help.

The funeral was held at the Christian Church Sunday February 25, conducted by Rev. Ramey of Troy, he having been a close friend of the family for many years. Rev. Ramey was assisted by Rev. Beebe of McGregor and Rev. Roy Durnal of this place. The church was beautiful with the many floral offerings. The music was in charge of Mrs. J. D. Shiner, sweet and comforting.

Active pall bearers were: Messrs. David and Horace Hines, Wilson Burns, Ralph Fikes and R. Graves. Hororary pall bearers were: Messrs. J. D. Skinner, U. F. Sharp, B. Burdette, E. C. Wilson, F. A. Hines, C. A. Hines, R. P. Kerr and H. C. Server.
